# Scope Delimitation, UX Elements & Journey-to-Screen Mapping

Course: User Experience Design & Human-Computer Interaction — UFRO 2026-2
Initiative 03: Assessment feedback that students actually use — **Redo**
Group 5: Emilia Toro (Project Lead), Cristian Sandoval (Designer), Bastian Wenckhans (Analyst)
Deliverable: Milestone 1 (Hito 1) — Prototype: https://www.figma.com/design/cwB8ZiCmUKTIgNYHercjWv

## 1. Overview

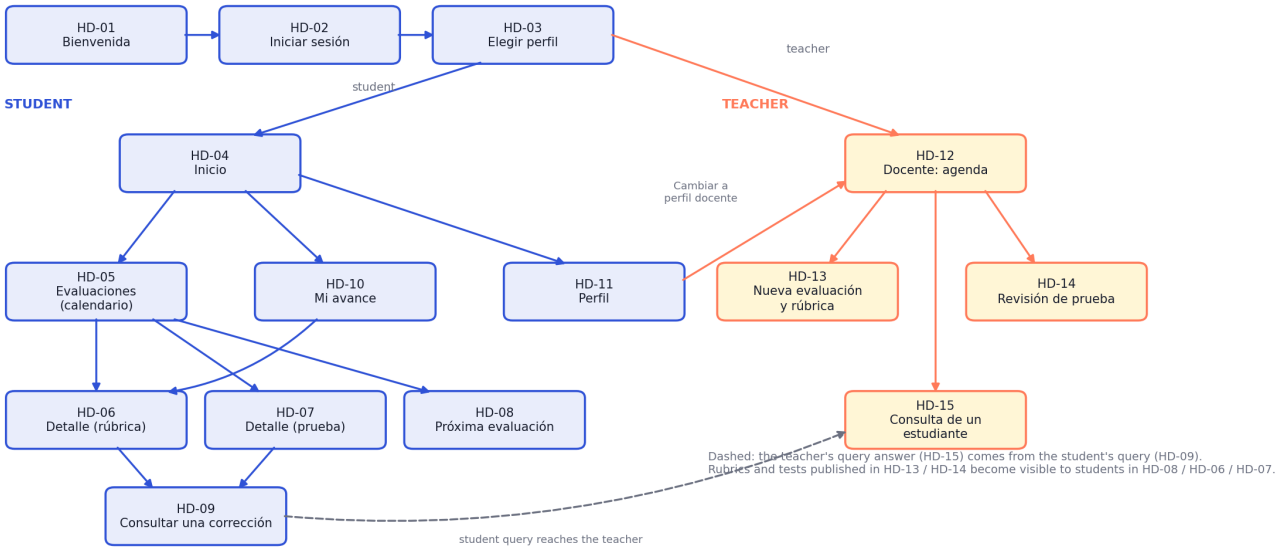

Redo is a mobile app that lets students see the calendar of their assessments, read the rubric before an assessment, understand a result criterion by criterion or question by question, follow their progress against the course and send a structured query to the teacher. A teacher side lets the teacher schedule assessments, publish rubrics or tests, review tests and answer queries. **The scope of this milestone is everything built in the 15 high-fidelity screens (HD-01 to HD-15).**

## 2. UX Elements Architecture (Jesse James Garrett)

| Plane | Techniques | Deliverables | Objective |
|---|---|---|---|
| **1. Strategy** | Semi-structured interviews (3 participants), thematic analysis, personas, Value Proposition Canvas. | User research report, UX personas, Value Proposition Canvas, project brief. | Understand how feedback is received and used, and define the value of Redo. |
| **2. Scope** | Competitive and analogous benchmarking, ERIC matrix, definition of flows and boundaries. | Benchmarking report, this document. | Bound the solution to one core flow and two secondary flows and justify what stays out. |
| **3. Structure** | Customer Journey Map, navigation flow, information architecture. | Customer Journey Map, navigation flow (section 3), journey-to-screen mapping (section 6). | Organize how the student moves from knowing an assessment is coming to tracking progress. |
| **4. Skeleton** | Paper low-fi sketches, wireframes. | Digitized low-fi sketches (added by the team). | Define layout, hierarchy and controls of each screen. |
| **5. Surface** | HD prototype, design system, visual identity. | Figma HD prototype (15 screens), Redo logo. | Final look in Spanish: Plus Jakarta Sans, color tokens, components. |

## 3. Navigation flow

The student and teacher profiles are reached from the profile choice (HD-03). The teacher profile can also be reached from the student's profile (HD-11). Orange nodes are teacher screens.

# 4. Screen inventory

| ID | Screen (Figma) | Actor | Purpose |
|---|---|---|---|
| HD-01 | Bienvenida | All | Welcome and entry. |
| HD-02 | Iniciar sesión | All | Sign in with the institutional account. |
| HD-03 | Elegir perfil | All | Choose student or teacher profile. |
| HD-04 | Inicio | Student | Next assessments and latest results. |
| HD-05 | Evaluaciones (calendario) | Student | Monthly calendar of assessments with state per day. |
| HD-06 | Detalle (rúbrica) | Student | Grade, total achievement, course average, points per criterion. |
| HD-07 | Detalle (prueba) | Student | Incorrect questions with the correct answer; final teacher comment. |
| HD-08 | Próxima evaluación | Student | Published rubric of an upcoming assessment. |
| HD-09 | Consultar una corrección | Student | Structured message to the teacher about a criterion or question. |
| HD-10 | Mi avance | Student | Own grades vs. course average, highest and lowest; chart; biggest error. |
| HD-11 | Perfil | Student | Student data, courses of the semester, switch to teacher profile. |
| HD-12 | Docente: agenda | Teacher | Schedule of assessments and pending queries. |
| HD-13 | Nueva evaluación y rúbrica | Teacher | Schedule an assessment; publish a rubric (criteria and weights, or file) or a test. |
| HD-14 | Revisión de prueba | Teacher | Review a test with a correct-answers sheet and a final comment. |
| HD-15 | Consulta de un estudiante | Teacher | Answer a student's query; the score can be adjusted once. |

# 5. Delimitation of scope

The proposal is bounded to **one core flow** and **two secondary flows**, plus supporting screens, with a written justification of what is left out.

### Core flow: prepare and understand a result

- **Actors:** student (Valentina, Samon) and teacher (Martina).
- The teacher schedules an assessment and publishes its rubric or test (HD-12, HD-13).
- The student sees it on the calendar and reads the rubric to prepare (HD-05, HD-08).
- After the assessment, the teacher reviews it with a correct-answers sheet and a final comment (HD-14).
- The student opens the result and sees points per criterion, or incorrect questions with the correct answer, and the course average (HD-06, HD-07).

### Secondary flow 1: query a correction

- The student sends a message anchored to a criterion or question (HD-09).
- The teacher answers and may adjust the score once (HD-15).

### Secondary flow 2: follow progress

- The student reviews own grades against the course average, highest and lowest, a line chart and the biggest error (HD-10).

### Supporting screens

- Welcome, sign in, profile choice and student profile (HD-01 to HD-03, HD-11), with the switch to the teacher profile.

### Out of scope and justification

| Feature | Decision | Justification |
|---|---|---|
| Evidence upload and corrective action cards | Excluded | Students only view feedback; research showed the need is understanding and asking, not submitting more work. |
| Integration with the UFRO intranet or Moodle | Excluded | The prototype uses its own data to validate the interaction before tackling institutional APIs. |
| Free chat with the teacher | Excluded | Queries are structured and tied to a criterion or question to avoid teacher overload and keep context. |
| Final-grade calculator and full gradebook | Excluded | Institutional systems already compute averages; Redo compares results, it does not replace the gradebook. |
| Automated grading with AI | Excluded | Not allowed in this milestone. |
| Multi-institution synchronization | Excluded | The prototype assumes a single institutional environment (UFRO). |

## 6. Customer Journey Map to screen mapping

| Stage | Student action | Emotional state | Screens | Teacher counterpart |
|---|---|---|---|---|
| **01 Know** | Checks which assessments are coming and when. | Uncertain | HD-04, HD-05 | Schedules the assessment (HD-12, HD-13). |
| **02 Prepare** | Reads the published rubric to know what will be evaluated. | Focused | HD-08 | Publishes criteria and weights, or a file (HD-13). |
| **03 Receive** | Opens the result: grade, achievement, course average. | Anxious | HD-04, HD-06, HD-07 | Reviews the test and writes a final comment (HD-14). |
| **04 Understand** | Sees points per criterion or incorrect questions with the correct answer. | Reassured | HD-06, HD-07 | — |
| **05 Ask** | Sends a structured message about a criterion or question. | Hopeful | HD-09 | Answers and may adjust the score once (HD-15). |

| Stage | Student action | Emotional state | Screens | Teacher counterpart |
|---|---|---|---|---|
| **06 Track** | Compares own grades with the course and finds the biggest error. | Encouraged | HD-10, HD-11 | — |
