Evaluated products

In Intranet UFRO
Mo Moodle (Campus Virtual UFRO)
Ca Canvas
Cl Google Classroom
Te Microsoft Teams (Assignments)
Gh GitHub pull requests
Fi Figma comments

↑ Increase
What is good about the evaluated products?

+ Include
What should our solution include?

↓ Reduce
What should stay, but smaller?

× Remove
What should go to improve the experience?

The letters on the right of each card show which product documents it. Cards without product letters are our own proposals. In is observed by the team, it has no public documentation. V, S and M show which persona needs it: Valentina, Samon, Martina.

↑ Increase

Result shown per criterion, with its level	Mo Ca Cl V S
Comment placed next to the criterion it explains	Mo Ca V M
Rubric visible before submitting	Mo V
Highlighted level, details collapsed	Cl S
Comment pinned to the exact place	Gh Fi S
Return for revision, status “Needs revision”	Te V S M

+ Include

An action for each weak criterion, confirmed by the instructor	V S M
Evidence linked to the earlier comment	Gh Fi S M
Send evidence for review	Gh V M
Same criterion compared across both submissions	Ca V M
A cue for which correction comes first	S
Version label next to each comment	Fi S

↓ Reduce

Scrolling to find the rubric and the comments	Mo V
Amount of feedback shown at once	S
Instructor effort to re-check a revision	Gh M
Typing the same information twice	M
Checking grades in more than one system	In Mo V S

× Remove

Resolved by the author counting as approved	Gh M
General feedback not tied to a criterion	Te V M
Comparing criteria that are not equivalent	Ca V M
“Completed” meaning “approved”	M
